

MSI Academy Illness/Injury Refund Request Policy

While MSI is understanding of player injury limiting participation at times, player injury does not reduce the expenses of operating the team, and it generally is not possible to replace a player on the roster on short notice, therefore refund requests must be considered carefully.

Registered Players missing three (3) consecutive months of play due to injury during the September through June timeframe will be eligible to apply for consideration of up to 15% of their annual Program Player Fee. Players missing two separate periods of three (3) consecutive months of play due to injury during the September through June timeframe will be eligible to apply for consideration of up to 30% of their annual Program Player Fee. Under no circumstances will an injured Player be eligible to request consideration for a refund greater than 30% of their annual Program Player Fee.

The uniform and team fees/expenses for the year are non-refundable and must be paid in full regardless of the timing of injury.

Documentation from the athlete's doctor must be presented within 1 week of the injury occurrence, and updated documentation should be provided throughout the injury/illness/rehab process. Doctor's note should confirm the inability to participate in soccer and the projected date range of limited activity.

Proper documentation must accompany all refund requests and requests will be evaluated per the guidelines above, on a case by case basis.

If submitting an injury refund request, please attach a note from the diagnosing doctor to this form and submit it to the MSI Academy.

Player Name: _____ Boy Girl

Player Date of Birth: _____

Parent/guardian email address: _____

Preferred Parent phone # _____

Nature of illness/injury _____

Date injury/illness began continuously _____ Date able to return _____

Please read and agree to each statement and initial on the line provided:

_____ I read and understand the injury policy above.
